EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Applicant's election of Group I, claims 1-12, in Paper filed on February 6, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 13 and 14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper filed on February 6, 2004.

The application has been amended as follows: **Non-elected claims 13 and 14 have been cancelled. In line 16, page 2 of the specification, "aid" has been replaced with ---acid---**.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: EP 0 728 803 and US Pat. 5,496,107 are considered to be closest prior art. However, said EP 0 728 803 teaches cooling (an intermediate storage) and an addition of a silane coupling

agent in a second mixer (example 1). Said US Pat. 5,496,107 teaches the instant ram mixer and ramless mixer in abstract and figure, but an addition of the reactive additives (the examiner considers that a silane coupling agent is the reactive additive since it reacts with silicic acid) is performed in a second mixer. The examiner does not see any teaching or suggestion to modify the invention of EP 0 728 803 and US Pat. 5,496,107.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 5,354,612 teaches silane treated silicic acid in example 1, and US 2002/0019473 A1 teaches the reaction of silane and silicic acid (hydrated silica) in [0011].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tae H Yoon whose telephone number is (571) 272-1128. The examiner can normally be reached on Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
